REBOOTING PUNE

The 'Oxford of East' is all set to reach new heights with urban transformation. Pune, known for its strong human capital and manufacturing & IT sector flourish, is riding high on 'Smart Cities Mission' with special focus on building Futuristic, Sustainable urban infrastructure to make the city more livable for citizens.

In this context, Elets Technomedia Pvt Ltd, Asia & Middle East's premier media and technology research organisation will be organising one of its kind 'Smart Livable & Resilient City Conclave-Pune' with 'Pune Smart City Development Corporation Limited' being the 'Host Partner' on 22- 23 June 2018.

'Smart Livable & Resilient City Conclave-Pune' will see insightful discussions on various components of smart cities, like:

- Traffic Management
- Smart Energy
- Sustainable Housing & Infrastructure
- IT & eGovernance
- Smart Mobility & Sustainable Transport Ecosystem
- Securing Cities

& many more...

The two day premier conference will see participation of:

- Policymakers
- Smart City Administrators
- Industry Leaders
- International Experts

& may more...

PUNE SMART CITY VISION

"To make Pune one of the most livable cities in India, by solving its core infrastructure issues in a "Future-Proof" way, and by making its neighbourhoods beautiful, clean and green"
